## Conference Abstract

### THE HOLY QUR'AN AND THE HISTORY OF SCIENCE

#### Hira Islam

Mrs. Hira Islam, is a Medical Radiation Therapist by profession. Hira's academic achievements include Research Abstract publication for Radiation Therapy Conference, University of Toronto, and department of Radiation Oncology PMH, which was published in Journal of Medical Imaging and Radiation Sciences in 2010.

**Ethics approval and consent to participate:** No ethical approval needed for this research work.

**Consent for publication:** Author is agreed to submit this abstract for publication in this research journal.

**Availability of data and materials:** The information and data collected and/ or incorporated in this study is included in this manuscript.

**Key words:** History, Science

## Speakers Profile

Mrs. Hira Islam, is a Medical Radiation Therapist by profession. Hira's academic achievements include Research Abstract publication for Radiation Therapy Conference, University of Toronto, and department of Radiation Oncology PMH, which was published in Journal of Medical Imaging and Radiation Sciences in 2010.

## Abstract

While most scholars acknowledge the fact that there are a thousand years missing from the History of Science, but only, some relate the missing link to the Islamic world founded on the principles and guidelines of the Holy Quran. Therefore, there is a need to methodically study the effects of the Holy Quran on the history of science. This research article tries to suggest reasons for the scholarly neglect shown towards the contributions of the Holy Quran. Lastly, it will explore how the

Holy Quran paved the way to the world of modern Science.
